Im writting in regards to the NAB petition 04-160. IU am a Law Enforcement officer with the state of Colorado on the eastern planes of the state. Until satellite radio came along I was restricted to the one radio station that reaches my area. I pa y for this service just like I pay for my satellite TV service. I think I should have the right to decide what to listen to and when to listen to it without the NAB dictating it to me. I do not like the Commercials on the radio which seem to play every 2 minutes. I also benefit from instant weather updates which are not available to me otherwise. Please !!!, do not allow the NAB to violate my freedom of choice by allowing the to dictate what I can listed to. Are they going to return my money for the equipment that I already purcased?
